

AMTES GmbH is a growing MRO, providing maintenance for Airbus 320, Boeing 737-CL, 737-NG, 747-400, 747-8F, and 777 as well as AN-124 and IL-76 aircrafts with branches at Airport Leipzig/Halle (LEJ) and Frankfurt/Main (FRA). We are a rapidly growing company bringing exciting opportunities for the right professional, who thrives on change and who would like to play a part in our growth.

We are offering Boeing 747-8 and Boeing 777 (EASA) type rating courses

We are building your and our future now...

AMTES GmbH will conduct several type rating initiatives in the second half of 2019 for:

Boeing 747-8 and Boeing 777 (classroom size 10 students for each course)

We are hiring 20 EASA B1/2/C engineers with at least one type rating endorsed as candidates for the type ratings.

You will directly go into a type training course, which is fully paid by AMTES GmbH.

Following the type rating your will join our Base and Line Maintenance teams in Leipzig (LEJ), Frankfurt/Main (FRA) or Liege (LGG).

EASA B1/2/C colleagues who want to participate in this unique program please send your CV together with all required documents (EASA License, Logbook, FTS, HF, EWIS etc.) directly to:
